

ALTA HEALTHCARE DISTRICT
COMMUNITY PARTNERS' SURVEY

The Alta Healthcare District Board is seeking your input as it assesses the current healthcare needs of residents within the District. Your opinions are being sought, either because you have previously worked with the District or we are very interested in your thoughts and guidance. Please take a few minutes to complete this survey and return it by e-mail to mwilhelm@wjhattorneys.com or by regular mail to Wanger Jones Helsley PC, Attn: Mike Wilhelm, 265 East River Park Circle, Suite 310, Fresno, California 93720.

It is our intention to take the information gathered by this survey and use it for our 2nd Community Partners Study Session sometime this Spring (Covid restrictions permitting). We hope to have everyone that fills out a survey in attendance.

The District is charged with the responsibility of allocating funds to best accomplish its mission. We know that there are many significant needs to be addressed, so the goal is to figure out how to take the dollars available and have the biggest impact within our communities. There are many ways to look at the options available. We recognize that both mental and physical health issues deserve our attention equally. There is also the issue of whether our focus should be more curative or preventative. Should we be more focused on education or direct intervention? Your input will help the Board allocate hundreds of thousands of dollars at their disposal annually.

Name: _____ E-mail: _____

- Given the current availability of services within the District, please rate each of the following 1, 2, 3, 4 or 5 in the first column (1 being the highest priority, with 5 being not a priority at all):

Access to Mental Health Services			Access to Physical Health Services		
Transportation to Access Services			Physical Fitness Equipment		
Senior Services			Allergy/Air Quality Issues		
Drug & Alcohol Addiction Treatment			Trauma and Depression Treatment		
Addressing Bullying among Youth			Social/Emotional Issues		
PTSD/Bi-Polar Conditions			Nutrition Services		
Homelessness			Urgent Care Availability		
Domestic Violence			Covid-19 Testing and Vaccinations		
Dental			Vision		
Obesity			Other:		

- How can the priority services (those you gave a 1, 2 or 3) most effectively be provided? Please Indicate in the second column: Educational Services ("E") Preventative Services ("P") of Treatment Services ("T")
- What are some successful programs you are aware of that currently exist in the District and could be expanded with District Funding to meet the above priority needs:

4. The following is a list of the grants made by Alta over the last several years. Please provide an "X" in the empty box besides the top 12 expenditures you feel were the most beneficial to the District:
